LIVING SHORELINE FUNDAMENTALS AND THE GROUP 1 JOINT PERMIT APPLICATION

*Learn the fast track essentials of living shoreline installation
at this “hands on” workshop for
MARINE CONTRACTORS, AGENTS and LANDSCAPE PROFESSIONALS*

Photo by Karen Duhring

The Group 1 General Permit provides a streamlined permitting process that encourages property owners to use natural solutions for shoreline erosion problems. Major topics for the workshop include site design, permit applications and installation techniques.

WORKSHOP HIGHLIGHTS

- ~ Maintaining proper elevation
- ~ Selection and planting of appropriate vegetation
- ~ Installation of materials
- ~ Removal and eradication of invasive species
- ~ Maintenance and monitoring of the site
- ~ **NEW** funding opportunities
