Project Information

A red asterisk (*) indicates a required field.

Project Name *

Has the USACE previously issued a file number for any part of the project area? *

-Select Option-

Project Location

 **IMPORTANT**

It is critical to accurately input the location during the initial creation of the project. The project's location determines the range of available requests within that specific geographical area. If an error is made in entering the project location, it will be necessary to delete the request and initiate a new one for the project.

How would you like to provide the Project Location?

Type in Address

Recommended for smaller projects.

Use a Map

Provide us with an address by placing a point, line or polygon on a map.

Recommended for small and medium projects.

Upload a Geodatabase

Provide us with project boundaries by uploading a geodatabase file.

Recommended for larger projects.

Regulatory Request System (RRS)

The purpose of this system is to accept electronic submittals of information, Department of the Army permit applications, requests for jurisdictional determinations, requests for preapplications, and comments on projects from the regulated public and resource agencies in one portal. Applicants or agents can also view general information about the Regulatory Program and check on the status of their requests.

Select an option below to get started:
